ATTACHMENT A
Property to Be Searched

This warrant applies to information associated with “Tyreese Walker,” Facebook ID 100024293470930, which is stored at premises owned, maintained, controlled, or operated by Facebook Inc., a company headquartered in Menlo Park, California.

ATTACHMENT B
Particular Things to be Seized

I. Information to be disclosed by Facebook

To the extent that the information described in Attachment A is within the possession, custody, or control of Facebook Inc. ("Facebook"), regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but are still available to Facebook, or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Facebook is required to disclose the following information to the government for each user ID listed in Attachment A:

- (a) All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.
- (b) All activity logs for the account and all other documents showing the user's posts and other Facebook activities June 23, 2020 – present;
- (c) All photos and videos uploaded by that user ID and all photos and videos uploaded by any user that have that user tagged in them June 23, 2020 – present, including Exchangeable Image File ("EXIF") data and any other metadata associated with those photos and videos;
- (d) All profile information; News Feed information; status updates; videos, photographs, articles, and other items; Notes; Wall postings; friend lists,

including the friends' Facebook user identification numbers; groups and networks of which the user is a member, including the groups' Facebook group identification numbers; future and past event postings; rejected "Friend" requests; comments; gifts; pokes; tags; and information about the user's access and use of Facebook applications;

- (e) All records or other information regarding the devices and internet browsers associated with, or used in connection with, that user ID, including the hardware model, operating system version, unique device identifiers, mobile network information, and user agent string;
- (f) All other records and contents of communications and messages made or received by the user June 23, 2020 – present, including all Messenger activity, private messages, chat history, video and voice calling history, and pending "Friend" requests;
- (g) All "check ins" and other location information;
- (h) All IP logs, including all records of the IP addresses that logged into the account;
- (i) All records of the account's usage of the "Like" feature, including all Facebook posts and all non-Facebook webpages and content that the user has "liked";
- (j) All information about the Facebook pages that the account is or was a "fan" of;
- (k) All past and present lists of friends created by the account;

- (l) All records of Facebook searches performed by the account June 23, 2020 – present;
- (m) All information about the user's access and use of Facebook Marketplace;
- (n) The types of service utilized by the user;
- (o) The length of service (including start date) and the means and source of any payments associated with the service (including any credit card or bank account number);
- (p) All privacy settings and other account settings, including privacy settings for individual Facebook posts and activities, and all records showing which Facebook users have been blocked by the account;
- (q) All records pertaining to communications between Facebook and any person regarding the user or the user's Facebook account, including contacts with support services and records of actions taken.

Facebook is hereby ordered to disclose the above information to the government within 14 days of issuance of this warrant.

II. Information to be seized by the government

All information described above in Section I that constitutes fruits, evidence and instrumentalities of violations of 18 U.S.C. § 844(i) (attempted arson) involving Joshua Lusk since June 23, 2020 – present, including, for each user ID identified on Attachment A, information pertaining to the following matters:

- (a) Evidence related to arson and civil unrest activity;
- (b) Evidence indicating how and when the Facebook account was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and to the Facebook account owner;
- (c) Evidence indicating the Facebook account owner's state of mind as it relates to the crime under investigation;
- (d) The identity of the person(s) who created or used the user ID, including records that help reveal the whereabouts of such person(s).

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC RECORDS PURSUANT TO
FEDERAL RULES OF EVIDENCE 902(11) AND 902(13)**

I, _____, attest, under penalties of perjury by the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this certification is true and correct. I am employed by Facebook, and my title is _____. I am qualified to authenticate the records attached hereto because I am familiar with how the records were created, managed, stored, and retrieved. I state that the records attached hereto are true duplicates of the original records in the custody of Facebook. The attached records consist of _____ **[GENERALLY DESCRIBE RECORDS (pages/CDs/megabytes)]**. I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth by, or from information transmitted by, a person with knowledge of those matters, they were kept in the ordinary course of the regularly conducted business activity of Facebook, and they were made by Facebook as a regular practice; and

b. such records were generated by Facebook's electronic process or system that produces an accurate result, to wit:

1. the records were copied from electronic device(s), storage medium(s), or file(s) in the custody of Facebook in a manner to ensure that they are true duplicates of the original records; and

2. the process or system is regularly verified by Facebook, and at all times pertinent to the records certified here the process and system functioned properly and normally.

I further state that this certification is intended to satisfy Rules 902(11) and 902(13) of the Federal Rules of Evidence.

California

Case No. 20-999M(NJ)

APPLICATION FOR A WARRANT BY TELEPHONE OR OTHER RELIABLE ELECTRONIC MEANS

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property (identify the person or describe the property to be searched and give its location):

See Attachment A - This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A).
located in the _____ District of _____, there is now concealed (identify the person or describe the property to be seized):

See Attachment B

The basis for the search under Fed. R. Crim. P. 41(c) is (check one or more):

- ☒ evidence of a crime;
☐ contraband, fruits of crime, or other items illegally possessed;
☒ property designed for use, intended for use, or used in committing a crime;
☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section
18:844(i)

Attempted arson.

Offense Description

The application is based on these facts:
See the attached affidavit.

- ☐ Continued on the attached sheet.
☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

**AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT**

I, Rick Hankins, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I make this affidavit in support of an application for a search warrant for information associated with a certain Facebook user ID, "Tyreese Walker" 100024293470930, which is stored at premises owned, maintained, controlled, or operated by Facebook Inc. ("Facebook"), a social networking company headquartered in Menlo Park, California. The information to be searched is described in the following paragraphs and in Attachment A. This affidavit is made in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) to require Facebook to disclose to the government records and other information in its possession, pertaining to the subscriber or customer associated with the user ID.

2. I am a Special Agent of the United States Justice Department, Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), currently assigned to the Milwaukee Field Office. I have been so employed since April 2003. My duties as a Special Agent with ATF include investigating alleged violations of the federal firearms, explosives, and arson statutes.

3. I have completed approximately 26 weeks of training at the Federal Law Enforcement Training Center (Glynco, Georgia), as well as the ATF National Academy.

That training included various legal courses related to Constitutional Law as well as search and seizure authority. Additionally, I have received training on how to conduct various tasks associated with criminal investigations, such as: interviewing, surveillance, and evidence collection.

4. In addition to my duties as a criminal investigator, I am also an ATF Certified Fire Investigator (CFI). As an ATF CFI, I am tasked with providing expert opinions as to the origin and cause of fires. I obtained the ATF CFI certification in 2009 following a two-year training program that centered on various fire science topics including, but not limited to: chemistry, fire dynamics, and building construction. The two-year ATF CFI certification program consisted of college courses, written exams, research papers, reading assignments, practical training exercises, and test burns of various materials. I am re-certified annually as an ATF CFI. To date, I have participated in over 270 fire scene examinations and have testified as an expert. Additionally, I have been certified as a fire investigator by the International Association of Arson Investigators since June 2011. I have received over 1,400 class hours of fire related training. Furthermore, I have been an instructor regarding fire related topics on 38 occasions for the following agencies and institutions: The National Fire Academy (FEMA), International Association of Arson Investigators Chapter 25, Waukesha County Technical College, and Blackhawk Technical College. I have also participated in over 200 live fire training exercises, where I started training fires and observed fire growth and development. Finally, I was a full-time instructor at the ATF National

Academy from August 2015 – August 2016, where I taught several topics during Special Agent Basic Training for new ATF recruits. Specifically, I was a primary instructor for the arson block of training at the ATF Academy.

5. Through my experience and training as a firearm and arson investigator, I am aware that social media sites, such as Facebook, can be used to store and save audio, video, and text files that can link to a variety of criminal activity. I am also aware that social media sites, such as Facebook, are often used by witnesses to crime to record criminal activity.

6. I have previously applied for and received search and arrest warrants related to the crime of arson, as well as other crimes.

7. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

8. Based on my training and experience and the facts, as set forth in this affidavit, there is probable cause to believe that violations of Title 18, United States Code, section 844(i) (attempted arson) has been committed by Joshua Lusk. There is also probable cause to search the information described in Attachment A for evidence of these crimes, as described in Attachment B.

PROBABLE CAUSE

9. On June 23, 2020, multiple people live-streamed on social media sites a rumor that the residents at a duplex located at 2120-2122 North 40th Street, Milwaukee, Wisconsin, were involved in an ongoing child abduction crime – the Milwaukee Police Department (MPD) did not find any evidence to support these residents committed any of the crimes of which they were accused. These social media rumors provoked dozens of people to surround the home and threaten the residents who were inside. Starting at about 5:30 p.m., the Milwaukee Fire Department (MFD) responded to the home because there were fires ignited by some of the group that surrounded the home. During fire suppression efforts at 2120-2122 North 40th Street, an MFD firefighter suffered an ankle injury while preparing the firetruck for fire suppression efforts. The firefighter was transported to the hospital and subsequently underwent surgery to repair ligament damage. The home was significantly damaged by the fire.

10. The ATF and Milwaukee Police Department (MPD) located several social media videos that showed the events surrounding the arson. In those social media videos, investigators could see several people using their cellphones to capture the activity around the home.

11. In one social media video that captured the arson activity, ATF and MPD saw a man in the crowd surrounding the house who was wearing jeans with gold back pockets. In a separate video, the man's face could be clearly seen, as well as his neck and hand tattoos. This man picked up a piece of clothing and held it above an ongoing

fire outside of the house. The man was attempting to ignite the clothing. After attempting to ignite the clothing, the man threw the clothing toward an ongoing fire inside of the house. The clothing was thrown through a broken window. Wisconsin Probation Agent Patrick Richards viewed images of the man with the gold back pockets, and he identified this man as Joshua M. Lusk (XX/XX/1987). Agent Richards was familiar with Lusk because he has had multiple interactions with him as his probation agent.

12. ATF and MPD conducted a *Mirandized* interview of Lusk. Lusk stated that on June 23 he was at 2120-2122 North 40th Street and was looking for the kids because he had heard about it on social media. Lusk stated that he was standing outside of the house by a broken window and could see a fire inside of that room of the house – Lusk could feel the heat from the fire. When asked about the clothing, Lusk explained that he held the clothing above a fire and then threw it in the window. Lusk stated that the clothing was smoking near the ground, but it was not on fire when he threw it into the ongoing fire inside of the house. Lusk said that he did not “technically” start the fire. Lusk explained, “Whether I tried to assist the fire or not, the assistance didn’t work....If it would be anything, it would have to be attempted, because it [the clothing] wasn’t on fire when I threw it in there.” When told by an investigator that he should not have tried to spread the fire, Lusk responded, “Maybe I shouldn’t have, bro. I thought about that afterwards.” Lusk further stated that while he was at the house, he saw someone using lighter fluid to ignite a fire. Lusk stated that he was outside of the house

recording that criminal activity. In an MPD video which captured the crowd prior to the fire, Lusk can be seen with a cellphone in his hand.

13. On July 8, 2020, MPD arrested Lusk for the arson. In a search incident to arrest, MPD recovered two cellphones from his person. The cellphones are further described as: (1) black Samsung Galaxy A01, serial number R9PN40ASVZJ (ATF Property Item #2 in case 772115-20-0070); and (2) black Samsung Galaxy A20, unknown serial number, with a blue case and cracked screen (ATF Property Item #3 in case 772115-20-0070).

14. On July 17, 2020, Affiant viewed Facebook Account "Tyreese Walker," which is associated with Facebook ID 100024293470930. Affiant is aware that Wisconsin Probation Agent Patrick Richards identified one of Lusk's known aliases as "Tyreese Walker" and identified "Tyreese Walker" with Facebook ID 100024293470930 as Lusk's Facebook account. In that account, Affiant saw pictures and videos posted by what appears to be the account holder. Affiant compared the person in those pictures and videos to a booking photograph of Joshua Lusk. Affiant can see that the person in the Facebook pictures and videos appears to be Lusk. Affiant also saw that there were videos posted on this account from June 23, 2020, which appear to be related to the arson at 2120-2122 North 40th Street. Based on Lusk's admissions that he was encouraged to go to 2120-2122 North 40th Street because of what he saw on social media and that he posted pictures and videos from June 23, 2020, Affiant believes that

there is probable cause that this Facebook account obtains information regarding criminal activity related to the arson.

FACEBOOK GENERALLY

15. Facebook owns and operates a free-access social networking website of the same name that can be accessed at <http://www.facebook.com>. Facebook allows its users to establish accounts with Facebook, and users can then use their accounts to share written news, photographs, videos, and other information with other Facebook users, and sometimes with the general public.

16. Facebook asks users to provide basic contact and personal identifying information to Facebook, either during the registration process or thereafter. This information may include the user's full name, birth date, gender, contact e-mail addresses, Facebook passwords, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers. Facebook also assigns a user identification number to each account.

17. Facebook users may join one or more groups or networks to connect and interact with other users who are members of the same group or network. Facebook assigns a group identification number to each group. A Facebook user can also connect directly with individual Facebook users by sending each user a "Friend Request." If the recipient of a "Friend Request" accepts the request, then the two users will become "Friends" for purposes of Facebook and can exchange communications or view

information about each other. Each Facebook user's account includes a list of that user's "Friends" and a "News Feed," which highlights information about the user's "Friends," such as profile changes, upcoming events, and birthdays.

18. Facebook users can select different levels of privacy for the communications and information associated with their Facebook accounts. By adjusting these privacy settings, a Facebook user can make information available only to himself or herself, to particular Facebook users, or to anyone with access to the Internet, including people who are not Facebook users. A Facebook user can also create "lists" of Facebook friends to facilitate the application of these privacy settings. Facebook accounts also include other account settings that users can adjust to control, for example, the types of notifications they receive from Facebook.

19. Facebook users can create profiles that include photographs, lists of personal interests, and other information. Facebook users can also post "status" updates about their whereabouts and actions, as well as links to videos, photographs, articles, and other items available elsewhere on the Internet. Facebook users can also post information about upcoming "events," such as social occasions, by listing the event's time, location, host, and guest list. In addition, Facebook users can "check in" to particular locations or add their geographic locations to their Facebook posts, thereby revealing their geographic locations at particular dates and times. A particular user's profile page also includes a "Wall," which is a space where the user and his or her

“Friends” can post messages, attachments, and links that will typically be visible to anyone who can view the user’s profile.

20. Facebook allows users to upload photos and videos, which may include any metadata such as location that the user transmitted when s/he uploaded the photo or video. It also provides users the ability to “tag” (i.e., label) other Facebook users in a photo or video. When a user is tagged in a photo or video, he or she receives a notification of the tag and a link to see the photo or video. For Facebook’s purposes, the photos and videos associated with a user’s account will include all photos and videos uploaded by that user that have not been deleted, as well as all photos and videos uploaded by any user that have that user tagged in them.

21. Facebook users can exchange private messages on Facebook with other users. Those messages are stored by Facebook unless deleted by the user. Facebook users can also post comments on the Facebook profiles of other users or on their own profiles; such comments are typically associated with a specific posting or item on the profile. In addition, Facebook has a chat feature that allows users to send and receive instant messages through Facebook Messenger. These chat communications are stored in the chat history for the account. Facebook also has Video and Voice Calling features, and although Facebook does not record the calls themselves, it does keep records of the date of each call.

22. If a Facebook user does not want to interact with another user on Facebook, the first user can “block” the second user from seeing his or her account.

23. Facebook has a “like” feature that allows users to give positive feedback or connect to particular pages. Facebook users can “like” Facebook posts or updates, as well as webpages or content on third-party (*i.e.*, non-Facebook) websites. Facebook users can also become “fans” of particular Facebook pages.

24. Facebook has a search function that enables its users to search Facebook for keywords, usernames, or pages, among other things.

25. Each Facebook account has an activity log, which is a list of the user’s posts and other Facebook activities from the inception of the account to the present. The activity log includes stories and photos that the user has been tagged in, as well as connections made through the account, such as “liking” a Facebook page or adding someone as a friend. The activity log is visible to the user but cannot be viewed by people who visit the user’s Facebook page.

26. Facebook also has a Marketplace feature, which allows users to post free classified ads. Users can post items for sale, housing, jobs, and other items on the Marketplace.

27. In addition to the applications described above, Facebook also provides its users with access to thousands of other applications (“apps”) on the Facebook platform. When a Facebook user accesses or uses one of these applications, an update about that the user’s access or use of that application may appear on the user’s profile page.

28. Facebook also retains Internet Protocol (“IP”) logs for a given user ID or IP address. These logs may contain information about the actions taken by the user ID or

IP address on Facebook, including information about the type of action, the date and time of the action, and the user ID and IP address associated with the action. For example, if a user views a Facebook profile, that user's IP log would reflect the fact that the user viewed the profile, and would show when and from what IP address the user did so.

29. Social networking providers like Facebook typically retain additional information about their users' accounts, such as information about the length of service (including start date), the types of service utilized, and the means and source of any payments associated with the service (including any credit card or bank account number). In some cases, Facebook users may communicate directly with Facebook about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Facebook typically retain records about such communications, including records of contacts between the user and the provider's support services, as well as records of any actions taken by the provider or user as a result of the communications.

30. As explained herein, information stored in connection with a Facebook account may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, a Facebook user's IP log, stored electronic communications, and other data retained by Facebook, can indicate who has used or

controlled the Facebook account. This “user attribution” evidence is analogous to the search for “indicia of occupancy” while executing a search warrant at a residence. For example, profile contact information, private messaging logs, status updates, and tagged photos (and the data associated with the foregoing, such as date and time) may be evidence of who used or controlled the Facebook account at a relevant time. Further, Facebook account activity can show how and when the account was accessed or used. For example, as described herein, Facebook logs the Internet Protocol (IP) addresses from which users access their accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the account access and use relating to the crime under investigation. Such information allows investigators to understand the geographic and chronological context of Facebook access, use, and events relating to the crime under investigation. Additionally, Facebook builds geo-location into some of its services. Geo-location allows, for example, users to “tag” their location in posts and Facebook “friends” to locate each other. This geographic and timeline information may tend to either inculcate or exculpate the Facebook account owner. Last, Facebook account activity may provide relevant insight into the Facebook account owner’s state of mind as it relates to the offense under investigation. For example, information on the Facebook account may indicate the owner’s motive and intent to commit a crime (e.g., information indicating a plan to commit a crime), or

consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

31. Therefore, the computers of Facebook are likely to contain all the material described above, including stored electronic communications and information concerning subscribers and their use of Facebook, such as account access information, transaction information, and other account information.

INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

32. I anticipate executing this warrant under the Electronic Communications Privacy Act, in particular 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A), by using the warrant to require Facebook to disclose to the government copies of the records and other information (including the content of communications) particularly described in Section I of Attachment B. Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

CONCLUSION

33. Based on the foregoing, I request that the Court issue the proposed search warrant. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant. The government will execute this warrant by serving it on Facebook. Because the warrant will be served on Facebook, who will then compile the requested records at a time convenient to it, reasonable cause exists to permit the execution of the requested warrant at any time in the day or night.

34. This Court has jurisdiction to issue the requested warrant because it is “a court of competent jurisdiction” as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is “a district court of the United States . . . that – has jurisdiction over the offense being investigated.” 18 U.S.C. § 2711(3)(A)(i).

35. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

REQUEST FOR SEALING

36. I further request that the Court order that all papers in support of this application, including the affidavit and search warrant, be sealed until further order of the Court. These documents discuss an ongoing criminal investigation that is neither public nor known to all of the targets of the investigation. Accordingly, there is good cause to seal these documents because their premature disclosure may seriously jeopardize that investigation.

ATTACHMENT A
Property to Be Searched

This warrant applies to information associated with “Tyreese Walker,” Facebook ID 100024293470930, which is stored at premises owned, maintained, controlled, or operated by Facebook Inc., a company headquartered in Menlo Park, California.

ATTACHMENT B
Particular Things to be Seized

I. Information to be disclosed by Facebook

To the extent that the information described in Attachment A is within the possession, custody, or control of Facebook Inc. ("Facebook"), regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but are still available to Facebook, or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Facebook is required to disclose the following information to the government for each user ID listed in Attachment A:

- (a) All contact and personal identifying information, including: full name, user identification number, birth date, gender, contact e-mail addresses, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.
- (b) All activity logs for the account and all other documents showing the user's posts and other Facebook activities June 23, 2020 – present;
- (c) All photos and videos uploaded by that user ID and all photos and videos uploaded by any user that have that user tagged in them June 23, 2020 – present, including Exchangeable Image File ("EXIF") data and any other metadata associated with those photos and videos;
- (d) All profile information; News Feed information; status updates; videos, photographs, articles, and other items; Notes; Wall postings; friend lists,

including the friends' Facebook user identification numbers; groups and networks of which the user is a member, including the groups' Facebook group identification numbers; future and past event postings; rejected "Friend" requests; comments; gifts; pokes; tags; and information about the user's access and use of Facebook applications;

- (e) All records or other information regarding the devices and internet browsers associated with, or used in connection with, that user ID, including the hardware model, operating system version, unique device identifiers, mobile network information, and user agent string;
- (f) All other records and contents of communications and messages made or received by the user June 23, 2020 – present, including all Messenger activity, private messages, chat history, video and voice calling history, and pending "Friend" requests;
- (g) All "check ins" and other location information;
- (h) All IP logs, including all records of the IP addresses that logged into the account;
- (i) All records of the account's usage of the "Like" feature, including all Facebook posts and all non-Facebook webpages and content that the user has "liked";
- (j) All information about the Facebook pages that the account is or was a "fan" of;

- (k) All past and present lists of friends created by the account;
- (l) All records of Facebook searches performed by the account June 23, 2020 – present;
- (m) All information about the user's access and use of Facebook Marketplace;
- (n) The types of service utilized by the user;
- (o) The length of service (including start date) and the means and source of any payments associated with the service (including any credit card or bank account number);
- (p) All privacy settings and other account settings, including privacy settings for individual Facebook posts and activities, and all records showing which Facebook users have been blocked by the account;
- (q) All records pertaining to communications between Facebook and any person regarding the user or the user's Facebook account, including contacts with support services and records of actions taken.

Facebook is hereby ordered to disclose the above information to the government within 14 days of issuance of this warrant.

II. Information to be seized by the government

All information described above in Section I that constitutes fruits, evidence and instrumentalities of violations of 18 U.S.C. § 844(i) (attempted arson) involving Joshua Lusk since June 23, 2020 – present, including, for each user ID identified on Attachment A, information pertaining to the following matters:

- (a) Evidence related to arson and civil unrest activity;
- (b) Evidence indicating how and when the Facebook account was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and to the Facebook account owner;
- (c) Evidence indicating the Facebook account owner's state of mind as it relates to the crime under investigation;
- (d) The identity of the person(s) who created or used the user ID, including records that help reveal the whereabouts of such person(s).

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC RECORDS PURSUANT TO
FEDERAL RULES OF EVIDENCE 902(11) AND 902(13)**

I, _____, attest, under penalties of perjury by the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this certification is true and correct. I am employed by Facebook, and my title is _____. I am qualified to authenticate the records attached hereto because I am familiar with how the records were created, managed, stored, and retrieved. I state that the records attached hereto are true duplicates of the original records in the custody of Facebook. The attached records consist of _____ **[GENERALLY DESCRIBE RECORDS (pages/CDs/megabytes)]**. I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth by, or from information transmitted by, a person with knowledge of those matters, they were kept in the ordinary course of the regularly conducted business activity of Facebook, and they were made by Facebook as a regular practice; and

b. such records were generated by Facebook's electronic process or system that produces an accurate result, to wit:

1. the records were copied from electronic device(s), storage medium(s), or file(s) in the custody of Facebook in a manner to ensure that they are true duplicates of the original records; and

2. the process or system is regularly verified by Facebook, and at all times pertinent to the records certified here the process and system functioned properly and normally.

I further state that this certification is intended to satisfy Rules 902(11) and 902(13) of the Federal Rules of Evidence.
